Test Engineer:
Nick Targett

A series of airbag deployment tests were conducted using a variety of seat covers to analyse the interaction of different seat covers with the deployment characteristics of a side airbag.

Millbrook test numbers C16731, C16733, C16734, C16736, C16737, C16738, C16781, C16782, and C16852 were conducted between 08-Jul-16 and 12-Oct-16.

This certificate may only be passed on un-amended and in its entirety, otherwise it is rendered invalid. Extractions or changes must be approved by Millbrook Proving Ground. Certificates without signature and watermark are invalid.

Date: 27-October-2016
